Born into wealth and privilege, Emma Frost lost both her family and fortune after discovering that she was a mutant. Emma used her immense telepathic gifts to ruthlessly ascend to power as the head of Frost Enterprises and as White Queen of the villainous Hellfire Club's Inner Circle. Long before she became a member of the heroic X-Men, she was...

The Emma Frost: White Queen

*Note: The events of this series take place sometime after X-MEN (1963) #138.

Emma Frost, White Queen of the Hellfire Club, suspected that there was a mole within the group's Inner Circle who has been conspiring with their enemies, the mutant X-Men. Sebastian Shaw, the club's Black King, tasked Emma with exposing the traitor. Emma traveled the globe, investigating various club members, along with her telepathic protégé Noor. Emma realized that she was being framed as the traitor, and Noor soon turned on her as well.

Now on the run, Emma has been evading the Hellfire Club's forces while trying to clear her name before a new White Queen is elected to replace her. With the traitor's identity still in doubt, Emma nevertheless vowed to return to New York to confront the Inner Circle.

All Hail The Queen

And so we've come to the final issue of **EMMA FROST: THE WHITE QUEEN**. It's been a heck of a ride thanks to our **A-Team: Amy Chu, Andrea Di Vito, Antonio Fabela and Ariana Maher!** All **A+** in name and talent! We've got one more chance to share some of your letters, so let's get to it!

Hello, darlings,

My name is Johnny Barbieri, and I'm from Brazil. I first fell in love with Emma in the *Generation X* (1996) movie thanks to local TV, but I didn't even catch her name. Years later, I found a Marvel Legends action figure of her and immediately thought: Omg, that's her! She dated my Human Torch figure, by the way. After that, I needed to know more about this beautiful and classy character, so I read every X-Men comic since the beginning, and it was just a blast to watch her development (and her outfits, of course). It's crazy to think that I've been an Emma Frost fan for like 20+ years. She helped me a lot with my confidence and my fashion sense (I'm a drag queen). Thank you so much for this solo series and the love you guys put into it. I am naturally attracted to villains, so the White Queen phase is definitely my favorite. Chris Claremont and John Byrne, I will always love you for creating Emma Frost.

Johnny Barbieri

Thanks for the lovely letter, Johnny! So happy to hear Emma has been an inspiration for you over the years, in all of her glorious incarnations. Also: My Invisible Woman action figure dated my Cable figure. It's a weird pairing but I stand by it.

I'm absolutely loving this comic! The subtle callbacks to Emma's high school fencing days are such a great touch—(eat your heart out, Matilda Brant!). I'm Emma Frost's biggest and most devoted fan. I've been collecting her appearances for years, and I run a fan page on Facebook called I Love Emma Frost, which turns 13 this October.

Overall, I'm incredibly grateful for the way you're portraying my favorite character. Her love letter genuinely moved me to tears. Thank you for doing her justice. I can't wait to see how the rest of the series unfolds.

With love and admiration,
Rodrigo

I've been exploring different series, and when I see an issue #1 that looks interesting, I grab it and give it a shot, which is how I picked up this one. This is my introduction to the character of Emma Frost and my first real step into X-Men besides watching the 2000 movie as a kid.

I don't think I could have had a better introduction. It was fun and intriguing, and I know she's meant to be a bad guy since

she's fighting the X-Men, but I love a complicated female character. I want her to be messy and do bad things and be out for herself because how dare the world turn its back on her because she was born a mutant?! I want to see her rage at the injustice in her own way, because that's not something women get to do nearly enough in media! And, dammit, I want to see her look good while doing it!

Jo

Jo, we're happy to be your (comics) introduction to Emma! Whether in her comics, film, TV-movie, action figure, animated or video-game incarnations, Emma will forever remain delightfully complicated... and look good doing it!

I just absolutely adore this version of Emma; the writers have done so well! I decided to pick up this comics series on a whim at my local comic store, and ever since I've been on an Emma Frost rabbit hole! I have even gone back to so many of her older comic appearances. And I have found such a new love for this character! I'm so excited to read the rest of the series!

Love,
Trinity

Hi, fellow Frostbites! (Is that what we're going with? I like it.)

It's my first time sending a message ever, and, of course, only Emma could rouse me

to do so. Emma has been my favorite X-character for almost as long as I can remember, and I am loving this series so far! It's inspiring how the series is finding the right blend of who Emma was in this time and who she will become one day.

I was immediately overcome with emotion when Emma and the little girl had their moment on the plane. That was the best example of Emma Frost there is, in my humble opinion. I stopped and cried from that sweet moment!

Stay fabulous,
Justin Mertz
Columbus, Ohio

Thank YOU for reminding us how powerful these characters and stories can be to us all, Justin! And glad we successfully made Frostbites a thing!

Hello Team Emma,

I just finished EMMA FROST: THE WHITE QUEEN #3, and I have to say I have really enjoyed the series so far. Seeing her using her telepathy to make her attackers think they got gamma clapped or webbed or the dreaded ants in the pants was a fun little sequence. Emma is such a complex and interesting character so adding to her lore will always be enticing. It has been a blast watching her grow throughout the years from villain to a staple member of the X-Men (she and Scott deserved a happier ending). I am looking forward to seeing what her next move is in the next issue! Keep up the fantastic work!

Riley Alltop

I want to say I'm new to comics, and never have I been so hooked on a comic. The writing is INCREDIBLE. The way you highlight small parts of Emma's past makes you feel sad for her, including how Liu uses his powers to make her vulnerable. But when she went up those stairs and took out the guards, she was so MOTHER!!!

Sincerely,
Daniel Hernandez-G
Detroit

DARLINGS!

I absolutely ADORE your work with EMMA FROST: THE WHITE QUEEN. Ever since I saw her on a 1993 X-Men Skybox card, I was ENRAPTURED. Not only did I love her, I wanted to BE her.

There can only be one Emma Frost, but I know deep down, there are MILLIONS of us out there carrying our inner White Queen around. Sometimes, I tap into that internal, ETERNAL energy, getting what I want, when I want and how I want it. We all know that Emma is smart, beautiful and cunning, but her CONFIDENCE has always been key.

How DARE Wolverine lay a paw on her beautiful outfit! Though the brute smells FOUL, it is always fun to watch him pounce. I am surprised to see Logan give Emma so much attention, since I hear he likes playing with LIGHTNING these days.

Till next time, beautifuls, keep up the AMAZING work.

Kisses,
Avah
Seattle

Darling, we adore you right back! Love your effusiveness, and may we all be so lucky as to channel our inner Emma.

I am so happy to see my favorite mutant diva getting the spotlight again with her own miniseries. Incidentally, are there any plans to do more limited series starring the Hellfire Club and its various associated mutants? (I'm sure Miss Frost would rather have a sequel series continue the focus on her.)

All the best from a lifelong X-Men fa—or rather, not to incur Miss Frost's wrath, all the best from a lifelong Hellfire Club fan,

Billy Gabel

While we may have reached the end of our series, Emma isn't going anywhere! Check out the next page to see where she's headed. And you can still continue to write us at OFFICEX@MARVEL.COM to share your Emma hopes and dreams for the future. Be sure to mark your emails "Okay to Print."

Finally, heartfelt thanks to all of you for reading and supporting this series, and most especially for your many letters—by far the most enthusiastic and fun of any I've received during my time at Marvel!

Stay Fab, Fashionable and Frosty!

—Martin
